#### Objectives

- \* Identify the current legislative platform for nurses and health care
- \* Identify legislative bills from the last session of Nebraska's Unicameral that affected nursing and health care
- \* Discuss lifestyle choices and medical advances to build bone health and manage osteoporosis for you and your employees
- \* Understand alcohol and drug addiction
- \* Recognize ways health professionals conceal addiction
- \* Explain what the Nebraska Licensee Assistance Program is and how referrals are made
- \* Enhance preparedness skills and knowledge in disaster triage for nurses
- \* Describe testing methods, purpose, and role in the detection of Tuberculosis (to include Tuberculin Skin Test and Interferon Gamma Release Assays)
- \* Identify Tuberculosis trends focusing on demographics, treatment options, and drug resistance
- \* Identify and implement ergonomic solutions to assist employees in reducing musculoskeletal fatigue during normal workday activities
- \* Delineate the relationship between wellness activities and safety practices
- \* Discuss how an integrated wellness and safety program can decrease medical costs
- \* Identify the role of chiropractic care in the occupational health arena
- \* Describe the types, incidence, and risk factors of skin cancer
- \* Discuss the occupational health nurse's role in preventing skin cancer
